HALO™ A “FOUNTAIN OF YOUTH”? - MORE LIKE A “RIVER OF HEALTH”!

William D. Clark, Ph.D. – “Dr. Bill” to his friends in Keller, Texas - has created a new company called **Ultimate Synergy™** which just launched its first product **HALO™** - an all natural, super antioxidant energy drink **scientifically proven** to contain the highest ORAC count (*Oxygen Radical Absorbancy Capacity*) of **all** antioxidant drinks on the market today (watch out XanGo, Noni & POM!). “An *ORAC measurement determines antioxidant potency by its ability to scavenge free radicals that damage our cells and tissues caused by environmental toxins and oxidative stress on our bodies, which, if left unchecked, causes disease and aging*”, states Dr. Clark. So with over 140,000+ ORAC units per liter bottle, **HALO™** is **loaded** with benefits! The old Baby Boomer pick-up line “*What’s your sign?*” has segued into “*What’s your ORAC?*” as aging Boomers, and others, personally take back their healthcare, spending over **\$20 billion dollars a year** in the U.S. supplement industry alone.

HALO™ is antioxidant-rich, provides amazing immune support, benefits the cardiovascular system and has cancer fighting polyphenols and free radical scavenging abilities to support optimum health and healthy aging. A 1 oz. serving of **HALO™** is like getting 10+ servings of fruits and vegetables daily. **That’s one potent, and affordable, River of Health!** “*Keeping the body’s immune system healthy and working at full, peak efficiency is the key to keeping disease and early aging at bay*”, states Dr. Clark. Clark has been in the nutraceutical business for years and holds a Ph.D. in Organic Chemistry from University of California at Santa Cruz, specializing in Natural Products. He was Director of R&D at PharmaPrint where he created and launched the *Centrum Herbal™* line; VP of Global Product Development and Regulatory Affairs at *Mannatech*, an international MLM supplement company in nearby Dallas, Texas, and now President and CEO of **Ultimate Synergy**. He searches the globe for new ingredients with unique and powerful healing properties and believes he found the “mother lode” in **HALO’s™** primary ingredient, **Fresh Olive Leaf Complex (FOLC)**, which is all-

natural, grown and manufactured fresh daily by *Olive Products Australia*, a family-owned and operated company with whom Dr. Clark has partnered. *Julian Archer, Corporate Development Director*, commented, “*Our unique Fresh Olive Leaf Complex has quickly become one of the fastest-selling natural health products in Australia. Based almost solely on word of mouth between ecstatic customers, sales rapidly passed \$1 million a month due to the benefits of using fresh olive leaf liquids instead of powders. We received thousands of testimonials from people thanking us for their regained youthful health and our goal is to make FOLC available to 1 billion people worldwide by 2010, and HALO™ is a key partner in making our extracts available to people in the USA,*” said Archer. There has been some amazing press recently about FOLC and Dr. Clark knows *exactly* why as he is a man who definitely “walks his talk”. He is a prime example of the type of “healthy living and healthy aging” his philosophy, company and products promote. Dr. Clark started swimming laps 5 days a week and within a year he lost 50 lbs. and was featured at his health club as one of its “*biggest losers*”. He takes his own products religiously, exercises regularly, watches his diet closely, has loads of energy and stamina and hasn’t had so much as a cold in years.

His wife, Penny, and other friends and neighbors, have been his “local guinea pigs” and have all become devout users of *HALO™*. Fellow *HALO™* consumer Jennifer Carlton, reveals: “*I’ve been taking other supplements for many years, but began taking HALO™ instead and after only 2 weeks there was marked improvement in my overall health and energy levels. This product is absolutely amazing! I’ve told all my family and friends and now they are taking the product.*” Watch for the next Ultimate Synergy product which is an anti-aging facial cream formulated with the *HALO™* Healthy Aging proprietary formula, thus providing increased external benefits along with the internal benefits for a whole body solution to great health! For further information about Dr. Clark, Ultimate Synergy and *HALO™* log onto: www.halohealthyaging.com or call (817) 788-2468.

So, “what’s *your* ORAC going to be?”
